RE: 10/593,545

Dear Ms. Schmidt,

The USPTO mailed a Notice to File Corrected Application Papers on August 4, 2009. This notice included a requirement to correct the drawings and or the specification filed on September 20, 2006. Per our conversation, the requirements are being amended as follows.

Figures 1A, 1B, 2A and 2B are acceptable as filed on 09/20/06 as they were filed as PCT drawings. No correction is required.

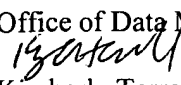

Figures 6A – 6H were previously properly submitted on 03/09/09. No correction is required.

Correction is required for the following figures. Applicant is given 2 months from the date of this Notice within which to correct the informalities indicated below. This period is NOT extendable under 37 CFR 1.136(a).

Figure 3 contains five views which must be labeled separately 3A – 3E. The specification must also include a description for 3A-3E. Currently, the specification only describes 3A-3D.

Figure 7 includes 4 views which must be labeled separately. Currently only figures 7A and 7B appear to be labeled. 7C and 7D must be labeled.

If you have any further questions or concerns, please do not hesitate to ask.

Sincerely,  
Kimberly Terrell, Manager  
Patent Publication Branch  
Office of Data Management
